Aroma Oil Massage

For a pleasantly relaxing body massage, choose one of our special aromatic oils. Feel how the warm oil vitalizes your body and clears the mind.

Mukabhyanga

Cosmetic treatment in the Ayurvedic way:
Special head, face and décolleté massage including selected energy points (marmas). The treatment is concluded with a rejuvenating face mask and sandal peeling. Afterwards we pamper your skin with a protective day cream

Hot Stone Massage

The healing power of warmth has been known for thousands of years in all cultures. The Hot Stone Massage is closely related to its Asian origins and combines warm stones with a feel-good massage. Using special massage techniques, a deep mental and physical relaxation is usually achieved.

Lomi Lomi Nui Massage

Originally this traditional massage was only used by the sages, healers and priests of Hawaii, the "Kahunas". Lomi Lomi Nui is not a massage in the usual sense of the word, because there is no pressing and kneading. With flowing movements, which are individually adapted to the body, layers of varying depth in the body are reached. Physical and mental blockades can be solved. Enjoy tropical dreams with the exotic scent of coconut and mango
