The Alpine Herbal Body Scrub

The plants offer the body a mild overheating and are excellent for deep relaxation and recharging your batteries. After a few minutes in the steam room the soothing effect can fully unfold. In addition, the herbal pack is a peeling cure, through which the metabolism is stimulated. Thanks to the double action the skin is strengthened and regains a youthful and fresh appearance.

Lomi Lomi Nui Massage

Originally this traditional massage was only used by the sages, healers and priests of Hawaii, the "Kahunas". Lomi Lomi Nui is not a massage in the usual sense of the word, because there is no pressing and kneading. With flowing movements, which are individually adapted to the body, layers of varying depth in the body are reached. Physical and mental blockades can be solved. Enjoy tropical dreams with the exotic scent of coconut and mango.
